Educational Meeting
Tuesday, October 28, 2025
8:30 a.m.— 12:30 p.m.
Huntsville Public Library
1219 13th Street
Huntsville

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe. **There will be a \$15.00 per sample fee for this program.**

BRING YOUR WELL WATER SAMPLES!

Well owners should bring water samples Monday, October 27 to be screened for nitrate–nitrogen, total dissolved solids (TDS), coliform bacteria and *E. coli* bacteria. Samples should be collected in a 12-20 ounce water bottle and dropped off at one of the following locations: **Grimes County AgriLife Extension office**: 203 Veterans Memorial Drive, Navasota or the **Walker County AgriLife Extension office**, 102 Tam Road, Suite B, Huntsville.

Samples are due on Monday, October 27th by 10:30 a.m.
There is a \$15 per sample cost for this screening.

Pre-register by contacting Joel Pigg
Email: j-pigg@tamu.edu

Funding for the Texas Well Owner Network is through a Clean Water Act section 319 (h) nonpoint source grant from the Texas State Soil and Water Conservation Board and the U.S. Environmental Protection Agency. The project is managed by the Texas Water Resources Institute, part of Texas A&M AgriLife Research, AgriLife Extension and the College of Agriculture and Life Sciences at Texas A&M University.
